Work Experience

Freelancer / UX/UI designer & Creative Director

feb 2015 — present, Ukraine / Poland / Germany / France / Czech Republic

During my freelance journey I collaborated with several great design teams and managed a wide variety of projects involving branding, web development, applications, UX/UI mobile and web design.

Interpretator / Head UX/UI designer

dec 2018 — jul 2019, Ukraine, Kyiv city

My main project for this company was an iOS application interface of a smart collar for pets. Data collected from a smart collar was used to improve health monitoring and training of ones pets. I conducted a full UX research with management team, identified problems with developers and engineers, and sucessfully presented concepts, app flows to the product executives.

Artlebedev / UX/UI designer

oct 2018 — nov 2018, Ukraine, Kyiv city

I was hired on a project basis. I worked on a online car rental system with more than 100 cars in use including premium services. My job was to create UX architecture and design user flows.

DeliSol (WebTech) / Web designer

aug 2016 — oct 2017, Ukraine, Kryvyi Rih city

My main responsibilites were e-mail marketing advertisement graphics development using HTML5, CSS and automation through high perfomance MySQL databases.
